

THE STATE NORMAL OPENED MONDAY

One of the Most Competent Faculties in Florida Obtained.

EVERY TEACHER A SPECIALIST

Board Exercised Every Precaution in the Selection of Instructors, and Those Who Attend This Session of the Normal Will be Benefited.

The Summer Training Normal School established by direction of the Board of Control of the University of the State of Florida, opened Monday with a good attendance. Classes are being organized for teachers and students who desire to prepare for a State, first, second and third grade certificates and for a life primary certificate.

The faculty in charge of this school is composed of the leading educators of the State. They are specialists in their respective lines of work. The opportunity is one that the teachers of the State cannot afford to lose.

The faculty is as follows:

Prof. L. W. Bucholtz, principal, psychology and pedagogy.

Dr. W. F. Yocum, Latin and physics.

Prof. I. L. Himes, Palatka High School, rhetoric, literature, composition and arithmetic.

Capt. G. M. Lynch, East Florida Seminary, geometry, algebra, trigonometry and general history.

Maj. W. L. Floyd, East Florida Seminary, botany, zoology, physical geography and physiology.

Prof. Arthur Williams, State College, civil government, United States history, composition, Florida history and orthography.

Prof. A. W. Jackson, White Springs, geography, arithmetic, algebra, orthography and United States history.

Mrs. J. B. Johnston, Dade City, grammar, reading and geography.

Mrs. Ellis LaF. Hamilton, primary department.

The Board of Trade of the city of Gainesville have perfected all arrangements for the opening of the dormitories of the East Florida Seminary to the students, charging \$12 a month board. This gives to the students an opportunity to secure first-class board at a nominal sum.

Those who desire to secure rooms in the dormitories should make application at once, because it is impossible to say how long the rooms will remain vacant. Quite a demand is already being made for reservations.

State papers please copy.

A PRIZE WINNER.

F. W. Barron of Evinston Sends to Gainesville a 96 Pound Melon.

When F. W. Barron, the progressive postmaster, merchant and all-round good citizen of Evinston, undertakes to do anything he goes at it in a manner which assures success, and very seldom, if ever, fails.

Mr. Barron has sent to The Sun a watermelon weighing ninety-six pounds. This melon was taken from a ten-acre field which has produced melons this season weighing from forty to ninety-eight pounds, making a fine average, and which have brought extra fancy prices in the market. Unlike the majority of melons of this dimension, the fruit is very solid, sweet and of excellent flavor. Mr. Barron is saving the seeds from this tract.

Thanks are extended to this enterprising grower for both the melon and his thoughtfulness.

BURGULARS AT WORK.

Entered Telegraph Office Sunday Night and Stole Several Things.

Burglars are again at work in Gainesville, and the office of the Western Union Telegraph Company is the latest victim. Some time during Sunday night they entered the office through a rear window and helped themselves to a telegraph instrument, telegraph key, sounder, small electric motor, two dry batteries and a few other things, the greater part of which was the property of Fletcher Ellis, a messenger boy in the employ of the company.

It is believed that the intruder was either a novice or a youth, since the articles taken were of little value to any person professionally engaged in the business.

Twentieth Century Club.

The ladies of the Twentieth Century Club are requested to meet at the Opera House at 8:30 o'clock this morning.

Dyspepsia of Women ABSOLUTELY NEEDLESS AGONY

Caused by Uterine Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by a derangement of the female organism, and which, while it causes a disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has peculiar uterine-tonic effects also.

As proof of this theory we call attention to the case of Mrs. Maggie Wright, Brooklyn, N. Y., who was completely cured by Lydia E. Pinkham's Vegetable Compound after everything else had failed. She writes:

"For two years I suffered with dyspepsia which so degenerated my entire system that I was unable to attend to my daily duties. I felt weak and nervous, and nothing that I ate tasted good and it caused a disturbance in my stomach. I tried different dyspepsia cures, but nothing seemed to help me. I was advised to give Lydia E. Pinkham's Vegetable Compound a trial, and was happily surprised to find that it acted like a fine tonic, and in a few days I began to enjoy and properly digest my food. My recovery was rapid, and in five weeks I was a well woman. I have recommended it to many suffering women."

No other medicine in the world has received such widespread and unqualified endorsement, or has such a record of cures of female troubles, as has Lydia E. Pinkham's Vegetable Compound.

FERRYMEN DROWN IN VIRGINIA.

Bridal Couple on Boat Narrowly Escape Similar Fate.

Danville, Va., July 10.—Hampton Oakes, white, and James Pannell, a negro ferryman, at Towler's ferry, on Staunton river, were drowned while rowing a party across the river yesterday evening.

In the boat were J. A. Ferguson and his bride of a few hours, Rev. Mr. Brooks, the minister who had married them, Walter Johnston and the two men that were drowned. The cable connecting the boat with the overhead cable broke, causing the boat to turn with the current and fill Pannell and Oakes, seeing the danger, jumped and were immediately drowned Johnston climbed to the overhead cable and after hard work succeeded in towing the boat ashore.

The bridal couple and the minister were taken from the water nearly exhausted. The buggy in which the couple were driving was washed overboard and the horse drowned. The minister's horse lodged in a tree and was afterwards rescued.

Buy It Now.

Now is the time to buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is certain to be needed sooner or later and when that time comes you will need it badly—you will need it quickly. Buy it now. It may save life. For sale by all druggists.

Georgia Veterans to Meet.

Macon, Ga., July 10.—The veterans, sons of veterans, mayor and council, Macon fair association and chamber of commerce, met with the executive committee of the Georgia division of confederate veterans and decided that October 24 and 25 would be suitable dates for holding the Georgia reunion at Macon next fall. This will be on the occasion of the first two days of the Georgia Farmers' Fair and Live Stock exposition. Special attractions and entertainment will be prepared for the veterans by the fair management. On Oct. 24 the Georgia division of the daughters of the confederacy will hold a conference here and inducements will be offered for them to meet at the fair grounds.

THE AGRA DIAMOND.

Old Manner in Which It Was Discovered.

In many other diamonds, the Agra diamond has had adventures. It goes its name from the fact that it was taken at the battle of Agra in 1526 by the Emperor Baber, who was the founder of the Mughal empire in India. The Marquis of Donnell was in Agra in 1857 when the diamond was taken from the king of Delhi. Donnell was at the time engaged as secretary and belonged to the same regiment as the young officer who obtained possession of the diamond. It was reserved among them to smuggle it home to England rather than give it up and to share in the loot money. The question arose how were they to get it home.

No one seemed able to hit upon a method that would be likely to meet with success until the last evening previous to the departure of the regiment. During the course of dinner the youngest lieutenant suddenly jumped up and said: "I have it. We will conceal the diamond in a horse's tail and make the horse swallow it." This met with general approbation, a bull was secured, the horse scooped out, the diamond inserted, the end stopped up and the horse made to swallow it.

When the regiment reached the port of embarkation the horse was taken ill and had to be shot. The diamond was taken from his stomach and brought over to England. It was subsequently sold to the Duke of Brunswick and since then it has been recut from a forty-six carat stone to thirty-one and a half carats in order to get rid of the black spots in it, and it is the most perfect and brilliant diamond of a rose pink color.

Andrew Johnson's Writing.

The letters of President Taylor are rare, but perhaps those of Andrew Johnson are the rarest, as he did but little of his own writing. His son conducted most of his correspondence and signed his father's name to the letters. It is related that one reason why President Johnson wrote so little was owing to an accident which happened to him when he was working at his trade as tailor. One day a tailor's heavy iron goose fell on his arm, so injuring that member that he found it extremely difficult to indulge in penmanship thereafter. Andrew Johnson was the poorest writer among the presidents as well as the rarest. His handwriting was very much of a scrawl and can scarcely be deciphered by the average reader.

Natural Cross of Pearls.

Some curious things have been found in the briny deep, but one of the oddest is an ecclesiastical emblem made of pearls which was washed ashore on the coast of West Australia. There are nine good sized gems in this natural curiosity. These have been joined together to form a perfect Latin cross. Seven pearls of equal size comprise the upright and two more form the transverse piece. The joining has been the work of nature. The odd prize, discovered in a pearl oyster, is said to be worth at least \$20,000. It is called the Great Southern Cross pearl.

Both.

Base—And of which variety is your wife, the clinging vine or the self assertive? Case—A little of both. When she wants a new dress or a new hat she generally begins in the clinging vine role. If that doesn't bring the money, then she changes to the self assertive, and—well, she invariably gets the dress or the hat.

Opposites.

"Why does he wish to marry her?" "He says people should marry their opposites."

"Why, they are both dark."

"Yes, but he hasn't a cent, and she has a million dollars."—Pittsburg Post.
